SAFETY. FROM THE TOP DOWN.

EMCOR employees challenge the notion that injuries happen. Which is why EMCOR's safety performance is far better than the Bureau of Labor Statistics industry averages, with a rate of injury that is consistently **60%–75% lower** than our competitors.* EMCOR's award-winning *Be There For Life! Zero Injury Program* instills employees with the conviction that every injury is preventable.

Telecommunications. Voice and Data. And so Much More.

Forest Datacom Services provides continual telecommunications services for clients' ever-changing technical requirements. Whether installing a new VoIP system, or upgrading an existing voice and data system, Forest Datacom Services helps clients that are looking to grow into the next generation of technology.
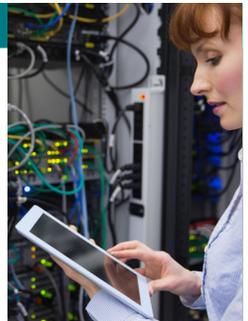

Ongoing Training. Unparalleled Knowledge.

New products are introduced into the marketplace nearly every day, and Forest NY invests considerable time and effort into training its people to be fully knowledgeable in these new offerings as soon as they become available. Training efforts are ongoing so that skilled engineers and technicians can respond to the most sophisticated and cutting-edge data center infrastructure, network integration, and structured cabling project requirements.

Certifications. And More Certifications.

Forest Datacom Services maintains the following manufacturers' systems certifications:

» Mohawk/CDT	» Superior/Essex	» Ortronic
» Hubbell	» General	» Leviton
» Belden/CDT	» Siemens	» Sumitomo Blown Fiber
» Commscope/Uniprise	» Commscope/Systimax	» Panduit
» Corning	» Berk-tek	
» Commscope/TE Connectivity		

Forest Electric has RCDDs (Registered Communications Distribution Designer) on staff to help ensure that all criteria defined within bid documents are met using the latest installation standards of the TIA/EIA industry. RCDDs are consistently participating in continuing education to stay up to date with the constant evolution of the telecommunications industry.
